

built for speed & efficiency

The Mikrofill Extreme with 'injection dynamics', a breakthrough in domestic hot water technology. By utilising this revolutionary method of heating, the Extreme generates hot water faster, cleaner and more efficiently than ever before.

The Extreme addresses and overcomes all of the disadvantages of the traditional coil type cylinder and maximises condensing boiler efficiency whilst combining the advantages of both an instantaneous hot water heater and a storage system.

- Up to 2570 litres an hour at 60°C
- Stainless steel cylinder
- Available in 200, 300 & 500 litre models

Contact Mikrofill today - to find out more about how the Extreme can help with your next project.
